# How to: Upload a Flight

**Osprey:Flights** instantaneously risk assess a flight from take-off to landing, by generating a flight risk report for a manually uploaded flight plan.

## How to upload a Flight

1. Download the specific flight plan from your flight planning software
2. Go to **Flights > upload flights** (down the left-hand side of the screen)
3. Click **browse** and choose the downloaded flight plan
4. click **upload** (the flight will now appear in the dashboard area)

*Note: our system only supports the following flight plan formats: GPX/ XML/ KML/ FPA*

The screenshot displays the Osprey Flight Solutions web application. The sidebar menu on the left has 'Upload flights' highlighted with a white circle and the number '2'. The main dashboard shows a table of flight data with columns for STD, Flight, Departure Airport, Arrival Airport, Upload Date, Level of Risk, and Actions. A modal window titled 'Flight > Upload' is open, showing the text 'Upload flight (GPX, XML, KML, FPA) Please select a flight to upload'. The modal has two buttons: 'Browse' (highlighted with a white circle and the number '3') and 'Upload' (highlighted with a white circle and the number '4'). The URL at the bottom of the browser is [https://www.ospreyfs.net/flights\\_upload](https://www.ospreyfs.net/flights_upload).

# How to: Use the :Flights Dashboard

**:Flights Dashboard:** The flight dashboard, gives you access to all the flights you and your team have uploaded into our system.

## How to view your flight risk assessment

1. Go to the :Flights dashboard down the left-hand side of the screen
2. Find the flight you wish to risk assess and click the **display** button, a new modal will appear as shown
3. Click the **report** button to generate an automatic, instant risk report of your flight plan (the report will open in a new window where you can download and save it)
4. you can also view the breakdown of a flight by clicking through tabs in the modal

*Note: You can search for your chosen flight using departure/arrival airports, level of risk or flight number.*

The screenshot displays the :Flights Dashboard interface. At the top, there are search filters for Departure Airports, Arrival Airports, Level of Risk, and Flight. A table lists flights with columns for DOF, STD, Flight, Departure Airport, Arrival Airport, Upload Date, Level of Risk, and Action. A flight with DOF 14-11-2022 and Level of Risk MODERATE is highlighted. A modal titled 'Flight Display' is open, showing flight details (Flight Number: OFS-80, Departure: LGIR, Destination: HRYP, DOF: 14-11-2022, ETD: 23:00) and a map of the flight route. The map shows the path from LGIR to HRYP, passing through the Aegean Sea & Cyprus region. At the bottom of the modal, there are tabs for Map, Summary Assessment, Vertical Profile, Alerts, and FIRs. A 'Report' button is visible at the bottom right of the modal.
